

App Tutorial - Orienteering

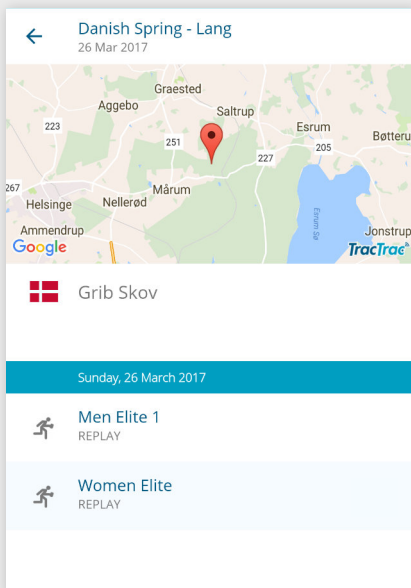

Event list

When first opening the TracTrac application the user will be presented with a list of all events TracTrac has. It is scrolled to the next up coming race, with the future race above and previous below. As the list grows it can some times be hard to find the right race. To easily find a race, use the search bar on the top right to open the Event search.

The club tab is specifically for clubs using TracTrac.

Event search

In the event search its possible to find events by name or by location.

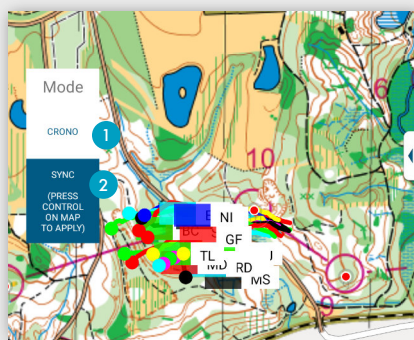

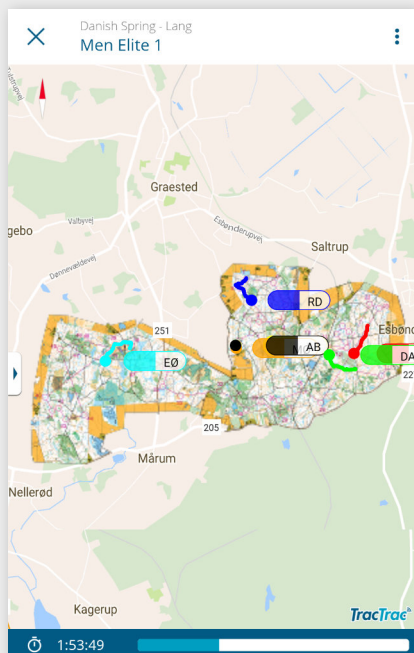

Event view

In the event view the user will be presented with brief information about the event and a list with all the races.

Open race view

Once the race has started the live race view will be available. To open it press anywhere on the row of the race to view.

Race view

This is where the action can be seen live or as a replay. It contains the map and necessary controls to view and replay a race. Race progress is displayed at the bottom as a progress bar and the actual time is displayed next to it.

Open race control

Touch anywhere on the bottom bar to open the race control.

Race control

1. Change the replay speed of the race.
2. Goes back to the beginning of data while live, or goes back to the beginning of the race if its in replay.
3. Jump back.
4. Pause / Play
5. Jump forward
6. Goes to the end of the race.

Open orienteering modes

On the left hand side of the map there is a small white button with an arrow, clicking this will open the modes menu.

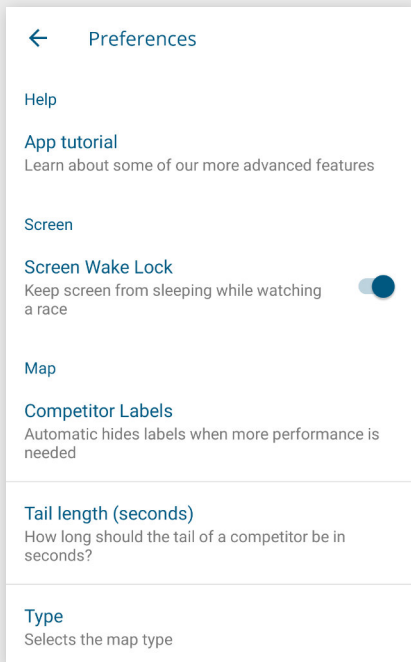

Orienteering modes Menu

1. Crono mode, the default mode when race is opened. Shows runners relative to their real start time.
2. Sync makes all competitors start simultaneously from the same selected control. Press a control on the map to apply the sync from that control.

Race menu

1. Map view, this is where you can see the race in live or replay.
2. Competitor list and competitor selection, reflects on map.
3. Split times, see stats for each competitor and leg.
4. Settings

Preferences

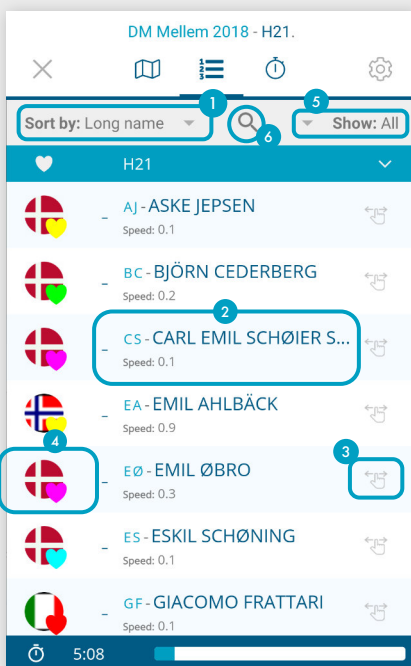

Screen wake lock: When checked the screen will always stay on while in the race view (Android only).

Map

Competitor Labels: You can disable or enable the competitor labels on the map. Automatic lets app decide when to show the labels.

Tail length: Decides the length of the tail for follow the competitor in seconds.

Type: This preference lets you change what type of map to display. Options are, Normal (Street map), Hybrid, Satellite & Terrain.

Competitor list

The competitor list shows all competitors of selected class('').

1. Sorting of competitors, default is ascending by longname.
2. In light blue, competitor's initials then the name,.. And below that competitor's speed.
3. The icon is an indicator that each row can be swiped for more options. See more documentation on the next page.
4. The colored circle shows the color of the competitor on the map.
5. Competitor selections, more details below.
6. Competitor search/filter, more details below.

Swipe competitor from right to left

Swiping a competitor from right to left will open details about the competitor. See more of this view in Competitor Details.

Swipe competitor from left to right

Swiping a competitor from left to right will close the leaderboard and focus on the competitor on the map.

Competitor Selection panel

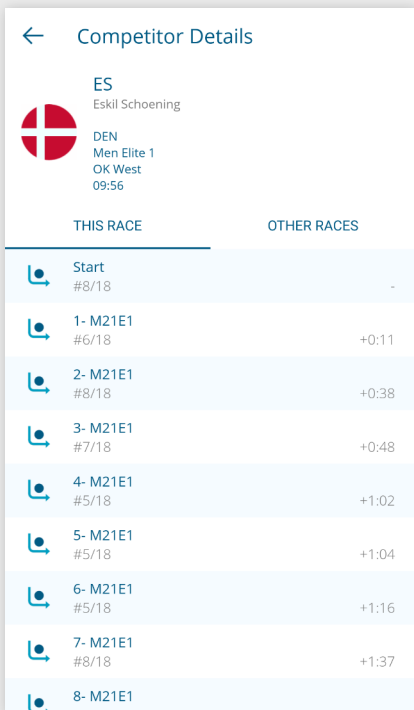

Pressing the heart on the left of the sorting buttons will open the competitor selection panel.

1. Shows all competitors
2. Selection mode, user selects which competitors should be visible
3. Keeps top three selected, plus selection mode like 2.

Search/Filter

Type name or nationality to search / filter for competitors.

Competitor details

In the competitor details you can see the details of a competitor and his/her mark passing times and position at the time of passing.

← Split times
Men Elite 1

#	Short	Name	After	Leg rank	L
Men Elite 1

10	OT	Olli Markus Taivainen	+7:55	11	6
11	MS	Milka Suominen	+8:20	12	6
12	MØ	Marius Thrane Ødum	+1:52:01	10	6

12- M21E1

Split times table

This is where you can see statistics of all competitors per leg of the race. The left column contains names and rank, while the right columns have all the statistics.

The right column is scrollable right and left as well as up and down.

At the very bottom the currently selected leg can be seen with a button on each side of it to skip between the different legs.
